

## Outlook for Island Fire

**Smoke:** Overall good air quality continues outside the immediate vicinity of the fire, except for down the Salmon River Canyon, where smoke in the unhealthy range is still possible mid-morning. With light west winds forecast, Etna may continue to have moderate smoke impacts in the afternoon.

**Fire:** Fire activity has been light, but seasonal drying of fuels will continue to increase the availability of fuels to burning. With light winds today, expect fire activity similar to yesterday.

**Other:** Monitors are now deployed in Yreka, Callahan, Etna, Sawyers Bar, Fort Jones, Quartz Valley, Happy Camp, and Weed.

## Daily AQI Forecast for Jul 17, 2017

Station	Yesterday hourly	Sun 7/16	Forecast Comment for Today -- Mon, Jul 17	Mon 7/17	Tue 7/18
Yreka		●	Good range in the morning with potential for light afternoon smoke	●	●
